

SHOWCAVE

EUROCAVE
PROFESSIONAL

EuroCave Professional places the emphasis
on ergonomics and eleganceau service du geste
et de l'élégance.

The ergonomics of our products are researched with sommeliers. Our aim is to
simplify handling and above all protect the bottles.

We work closely with design firms who convey, through the products' lines, shapes
and materials, our identity and the quality of our appliances.

The materials and colours used create an elegant setting for your wine.

BOTTLES EFFECTIVELY DISPLAYED

CREATING YOUR WINE WALL

BOTTLES BEAUTIFULLY DISPLAYED

ShowCave beautifully displays and promotes your best bottles thanks to an effective mirror effect.

The reflective interior walls magnify the lighting and create perspective and depth. ShowCave is a perfect addition to a restaurant dining area.

LEDs fitted along the interior walls of the cabinet provide gentle, amber lighting to cleverly showcase your bottles, without harming your wine.

A design reinforced by storage or display rods, encouraging customers to admire your fine wines.

BOTTLES PROTECTED

ShowCave is a single-temperature cabinet which can be set from 6 - 18°C, to bring your champagne, red or white wine to an ideal serving temperature.

Main du Sommelier, a patented bottle support, holds all types of bottles and protects them from vibration for optimal storage.

YOUR WORLD
YOUR PERSONALITY

FITS IN

ShowCave provides an alternative to custom-made, without compromising on performance.

A flush-fitting cabinet with a shallow depth*, it naturally finds its place in any environment. You can customise its covering or have it built into a customised unit.

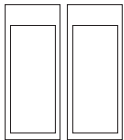

ADAPTS

Available with 1 or 2 doors, ShowCave allows you to create a wine wall suited to your requirements.

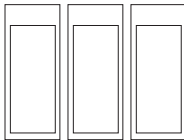

Many combinations are possible allowing you to create an atmosphere unique to your establishment and choose the temperatures most suited to your cabinet's contents.

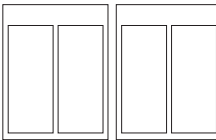

EXAMPLES OF THE DIFFERENT
COMBINATIONS AVAILABLE

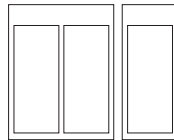

2 temperatures
2x1 door - 180 bottles
1,40 m window*

3 temperatures
3 x 1 door - 270 bottles
2,10 m window*

2 temperatures
2 x 2 door - 360 bottles
2,60 m window*

2 temperatures
1 x 2 door + 1 x 1 porte - 270 bottles
2,00 m window*

*1 single depth (499 mm) - 1 single row of bottles – thanks to the high position of its cooling unit.
** Dimensions for cabinets installed side by side, not flush-fitted.

Example of modularity : 2 temperatures, 270 bottles maximum, 2,00 m window
